HOW WE WILL CALCULATE YOUR BALANCE

We use a method called “average daily balance (including new purchases).

HOW WE WILL CALCULATE YOUR VARIABLE APR

We calculate variable APRs by adding a margin to the highest U.S. Prime rate published in the Money Rates section of The Wall Street Journal (WSJ) two business days (excluding weekends or federal holidays) before the closing date shown on our billing statement. The APR may increase or decrease each month if the Prime Rate changes. Any new rate will be applied as of the first day of your billing cycle after the Prime Rate has changed. If the APR increases, you will pay a higher interest charge and may pay a higher minimum payment. The Prime Rate is simply a reference index and is not the lowest interest rate available. If The Wall Street Journal stops publishing the Prime Rate, we will select a similar reference rate.

Current variable APRs are based on the WSJ Prime rate and the applicable index as shown above.

HOW WE WILL CALCULATE YOUR MINIMUM MONTHLY PAYMENT

Your minimum monthly payment will be the greater of 2% of the outstanding principal balance on each monthly billing statement, or \$15. If your outstanding balance is less than \$15, your minimum payment will be your outstanding balance.

The APR information shown above is accurate as of March 15, 2022, and is subject to change. To obtain current APR information call us at (800) 683-0973 or contact your local branch.
